

Quaker Chemical Receives a Supplier Excellence Award From Constellium's Facility in Muscle Shoals, Alabama

May 30, 2017 at 10:00 AM EDT

CONSHOHOCKEN, Pa., May 30, 2017 /PRNewswire/ -- Constellium, a global manufacturing leader in aluminum products and solutions, has awarded **Quaker Chemical Corporation** (NYSE:KWR, "Quaker") with the 2016 **Constellium Muscle Shoals Supplier Excellence Award**.

As part of a supplier incentive program to make Constellium more competitive in the market, Quaker has excelled as a top supplier. Flavio Alberino, Procurement Director of Constellium's Muscle Shoals plant, commented, "Quaker is a top supplier performer and clearly deserved this award for its outstanding work and committed team."

At the Muscle Shoals (Alabama, USA) plant, the Quaker emulsion performance resulted in **significant Total Cost of Ownership (TCO) savings** surpassing the benchmarked target. Quaker achieved this decrease in average cost/mm lbs in the hot line rolling oil with a similar production output level.

An award ceremony was held in April 2017 at the Muscle Shoals site that was attended by Constellium executives and Quaker Associates.

Quaker's **aluminum rolling expertise and high-performance fluids** (<https://www.quakerchem.com/expert-experience/industry-expertise/aluminum>) deliver solutions for every process in the mill. The rolling oils and lubricants are formulated to be compatible with downstream processes allowing for the most productive, cost-effective transitions possible from casting to coil.
