

## Product Solutions to Suppress Dust and Reduce Downtime

April 12, 2018 at 1:03 PM EDT

### Quaker Chemical Corporation Exhibits at the 2018 Ohio Valley Oil and Gas Expo

CONSHOHOCKEN, Pa., April 12, 2018 /PRNewswire/ -- **Quaker Chemical Corporation** (NYSE:KWR, "Quaker") will be showcasing how its **DUSTGRIP® Dust Suppressants** support a safe work environment and offer compliance solutions at the **2018 Ohio Valley Oil and Gas Expo**, April 24-25 2018 in St. Clairsville OH, USA. (<http://www.ohiovalleyoilgasexpo.com/index.php>).

Fugitive dust from unstable roads and oilfields can be an issue in the oil and gas industry. To help with this challenge Quaker offers DUSTGRIP®, a family of dust suppressant products, that now includes **DUSTGRIP® SUPER TAC**, a new generation dust suppressant that binds the surface roadway while maintaining sub-soil moisture content. DUSTGRIP® SUPER TAC is well suited for dry to moderately rainy climates, and has the ability to retain moisture and re-hydrolize after initial application.

Quaker has also added a line of maintenance cleaners, formulated to have reduced environmental impact:

- **QUAKER FORMULA® PURE BLUE™ HD** an EPA approved formulation contains hard-working surfactants to cut through oil, grease, and shop machinery while also being less irritating for workers.
- **QUAKER FORMULA® PURPLE PRO** provides excellent penetration and loosening of soils to efficiently remove soils such as grease, grime and grit from floors, equipment, walls and equipment housings.
