

Lubricant Solutions for Die Casting's Most Challenging Processes

October 9, 2018

Quaker Chemical Technical Experts to Speak at NADCA 2018 Congress & Exposition

CONSHOHOCKEN, Pa., Oct. 9, 2018 /PRNewswire/ -- Die casters often encounter process situations that impact their operations. Die casting lubricants can make a big difference by providing efficiencies and cost saving through:

- Longer die and tool life
- Extended production cycles without interruption
- More parts produced per hour
- Less scrap
- Reduction of soldering and reduced waste production

Quaker Chemical Corporation (NYSE: KWR, "Quaker"), a global chemical specialty supplier and technical leader in die casting lubricant solutions, will present lubricant solutions at the NADCA 2018 Die Casting Congress and Exposition, October 15-17 at the Indiana Convention Center in Indianapolis IN. (<https://www.quakerchem.com/events/nadca-2018/>)

At the conference Quaker technical experts will present papers at the Lubricant session:

- **"Instantaneous Monitoring of Bio-Growth in Die Lubricants with Adenosine Triphosphate Testing"** by Chirag Vaghela, Development Chemist III, on Monday, October 15th
- **"Understanding Your Lubricant Optimizes Production"** by Matt Lococo, Global Technical Director – Die Casting, on Monday October 15th

At **booth 902**, Quaker will feature its broad portfolio of die casting lubricants (https://www.quakerchem.com/wp-content/uploads/brochures-and-manuals/die-casting/die_casting_product_line.pdf) ranging from die lubricants, plunger lubricants, ladle coating, trimming lubricants, to fire-resistant hydraulic fluids, metal removal fluids, and cleaners.
