

## A Focus on Mine Site Safety for Hydraulic Fluids and Dust Suppression at CONEXPO - CON/AGG 2020

February 25, 2020 at 9:00 AM EST

### Quaker Houghton Focuses on Its Fire-Resistant Hydraulic Fluids, Dust Suppression, and Ground Control Solutions

CONSHOHOCKEN, Pa., Feb. 25, 2020 /PRNewswire/ -- Quaker Houghton (NYSE:KWR), a global leader in process fluid solutions, will be exhibiting its QUINTOLUBRIC® Fire-resistant Hydraulic Fluids, DUSTGRIP® Dust Suppressants, and MINETECH™ Ground Control Agents at CONEXPO-CON/AGG 2020 (<https://home.quakerhoughton.com/event/conexpo-con-agg/>), in the Bronze Hall at **Booth B92209**. North America's largest construction trade show will be held at the Las Vegas Convention Center in Las Vegas, Nevada from March 10-14, 2020.

Industries today must cope with a wide variety of priorities, ranging from effectiveness and cost-efficiency to most of all safety. You need solutions that work anywhere, in different situations and conditions. Quaker Houghton will feature key technologies from its compliance solutions portfolio including:

- **Fire-Resistant Hydraulic Fluids:** QUINTOLUBRIC® 888 polyol ester based hydraulic fluids can replace anti-wear, mineral oil based hydraulic fluids in applications where fire hazards exist, and can also be used in environmentally sensitive hydraulic applications without compromising overall hydraulic system applications.
- **Dust Suppression:** DUSTGRIP® family of dust suppression products help reduce the generation of dust particles from mines, roads, stockpiles, rail hauls, construction sites, quarries, and other areas where dust control is a problem.
- **Ground Control Agents:** MINETECH™ feature outstanding mechanical properties and flexibility to be an effective ground consolidation and stabilization tool.
