

Quaker Chemical Launches New Website for QUINTOLUBRIC® Fire-Resistant Hydraulic Fluids

December 10, 2014 at 10:36 AM EST

CONSHOHOCKEN, Pa., Dec. 10, 2014 /PRNewswire/ -- Today, Quaker Chemical Corporation (NYSE: KWR), a global provider of process fluids chemical specialties and technical expertise, is debuting its new website <http://www.quintolubric.com> for its QUINTOLUBRIC® fire-resistant hydraulic fluids.

The new site has Quaker's Fluid Power products listed by hydraulic fluid category

- HFA – **High Water Content Fluids**
- HFC - **Water Glycol Fluids**
- HFD – **Synthetic Water Free Fluids**

And also provides in-depth content on Quaker's industry expertise and fire-resistant hydraulic fluid offerings for the aluminum, automotive/heavy equipment, bearings, die casting. General manufacturing, marine/offshore, mining, pit & quarry, power generation, steel, tube & pipe, and tunneling.

The new website embodies Quaker's brand, logo and tagline, and provides an improved user experience through:

- User friendly navigation menus
- Better access to technical materials, videos and brochures
- New pages with content on Quaker's industry expertise and description of its line of QUINTOLUBRIC® fire-resistant hydraulic fluids

Furthermore, the site was built using a responsive web design (RWD) approach providing an optimal viewing experience; easy reading and navigation, and minimal need for resizing, panning or scrolling across a wide range of devices – from mobile phones to desktop computer monitors.

The new site better communicates who Quaker is as a company and the support that the QUINTOLUBRIC® line of fire-resistant hydraulic fluids can provide to industrial operations. For the full experience visit <http://www.quintolubric.com>.
