Forward Together

Quaker Houghton Investor Presentation February 2021

Risks and Uncertainties Statement

On August 1, 2019, Quaker Chemical Corporation (the "Company", also known as Quaker Houghton) completed its combination with Houghton International, Inc. ("Houghton") (herein referred to as "the Combination"). In addition, the Company acquired the operating divisions of Norman Hay plc ("Norman Hay") on October 1, 2019.

Regulation G

The attached charts include Company information that does not conform to generally accepted accounting principles ("GAAP"). In addition, the Company has provided certain unaudited pro forma financial information is based on the historical consolidated financial statements and results of both Quaker, as reported, and Houghton, and has been prepared to illustrate the effects of the Combination. The unaudited pro forma financial information has been presented for informational purposes only and is not necessarily indicative of Quaker Houghton's past results of operations, nor is it indicative of the future operating results of Quaker Houghton and should not be considered a substitute for the financial information presented in accordance with GAAP. Management believes that an analysis of this data is meaningful to investors because it provides insight with respect to ongoing operating results of the Company and allows investors to better evaluate the financial results of the Company. These measures should not be viewed as an alternative to GAAP measures of performance. Furthermore, these measures may not be consistent with similar measures provided by other companies. These measures should not be viewed as an alternative to GAAP measures of performance. This data should be read in conjunction with the Company's first, second and third quarters of 2020 and full year 2019 earnings news releases, which have been furnished to the Securities and Exchange Commission ("SEC") on Form 8-K as well as its Annual Report for the year ended December 31, 2019.

Forward-Looking Statements

This presentation contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements can be identified by the fact that they do not relate strictly to historical or current facts. We have based these forward-looking statements, including statements regarding the potential effects of the COVID-19 pandemic on the Company's business, results of operations, or financial condition and expectations regarding our liquidity position and our continued compliance with the terms of the Company's credit facility on our current expectations about future events. These forward-looking statements include statements with respect to our beliefs, plans, objectives, goals, expectations, intentions, financial condition, results of operations, future performance, and business, including but not limited to the potential benefits of the Combination, the impacts on our business as a result of the COVID-19 pandemic and any projected global economic rebound or anticipated positive results due to Company actions taken in response to the pandemic, and our current and future results and plans and statements that include the words "may," "could," "should," "would," "believe," "expect," "anticipate," "estimate," "intend," "plan" or similar expressions. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected in such statements. A major risk is that demand for the Company's products and services is largely derived from the demand for its customers' products, which subjects the Company to uncertainties related to downturns in a customer's business and unanticipated customer production shutdowns. Other major risks and uncertainties include, but are not limited to, the primary and secondary impacts of the COVID-19 pandemic, including actions taken in response to the pandemic by various governments, which could exacerbate some or all of the other risks and uncertainties faced by the Company, including the potential for significant increases in raw material costs, supply chain disruptions, customer financial stability, worldwide economic and political conditions, foreign currency fluctuations, significant changes in applicable tax rates and regulations, future terrorist attacks and other acts of violence. Furthermore, the Company is subject to the same business cycles as those experienced by steel, automobile, aircraft, industrial equipment, and durable goods manufacturers. The ultimate impact of COVID-19 on our business will depend on, among other things, the extent, duration and strength of the resurgence of the pandemic, the severity of the disease and the number of people infected with the virus, the continued uncertainty regarding widespread availability of a vaccine, the effects on the economy by the pandemic, including the resulting market volatility, and by the measures taken by governmental authorities and other third parties restricting day-to-day life and business operations and the length of time that such measures remain in place, and governmental programs implemented to assist businesses impacted by the COVID-19 pandemic. Other factors could also adversely affect us, including those related to the Combination and other acquisitions and the integration of the combined company as well as other acquired businesses. Our forward-looking statements are subject to risks, uncertainties and assumptions about the Company and its operations that are subject to change based on various important factors, some of which are beyond our control. These risks, uncertainties, and possible inaccurate assumptions relevant to our business could cause our actual results to differ materially from expected and historical results. All forward-looking statements included in this presentation, including expectations about the improvements in business conditions during the remainder of 2020 and future periods, are based upon information available to the Company as of the date of this presentation, which may change. Therefore, we caution you not to place undue reliance on our forward-looking statements. For more information regarding these risks and uncertainties as well as certain additional risks that we face, refer to the Risk Factors section, which appears in Item 1A of our Quarterly Report on Form 10-Q for the period ended September 30, 2020, as well as in Item 1A in our Annual Report on Form 10-K for the year ended December 31, 2019, and in our other reports filed from time to time with the SEC. We do not intend to, and we disclaim any duty or obligation to, update or revise any forward-looking statements to reflect new information or future events or for any other reason. This discussion is provided as permitted by the Private Securities Litigation Reform Act of 1995.

Our Plan to Grow

Mid-teens market share allows plenty of room to grow

Combination provides unique opportunities to cross-sell products to expanded customer base and end markets

Well positioned to take advantage of macro trends like **electrification, digitization**, and an expected **increased regulatory environment**

We are in markets that are expected to grow at a rate of 1-3% over time

Differentiated customer intimate business model will enable share gains above market at 2-4% into the future

Continue to pursue strategic **acquisitions**

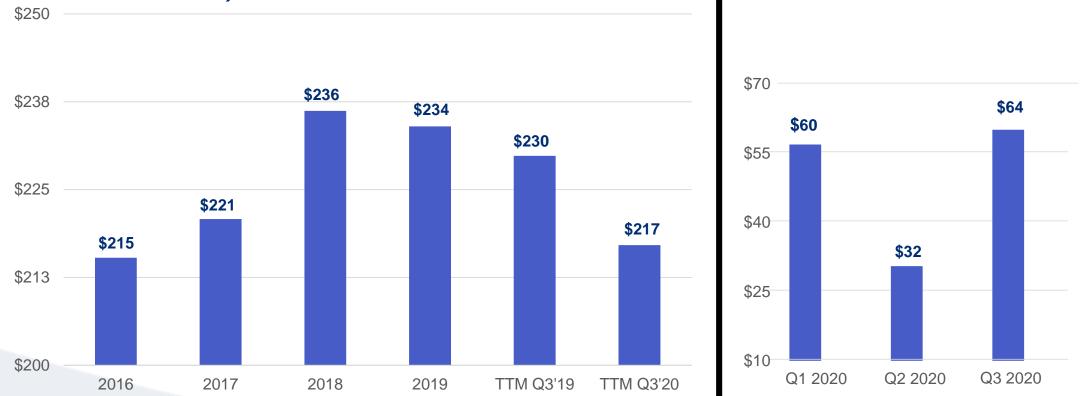

Impact of COVID-19

- Top priority is to protect the health and safety of our employees and our customers, while ensuring business continuity to meet all our customers' needs
- All 34 production facilities worldwide are open and operating
- Acted quickly to conserve cash and reduce costs, including eliminating discretionary spending, hiring freezes, selective furloughs and planned capital expenditures reduced by 30%
- Operating cash flow during the first nine months of 2020 more than tripled compared to the prior year period; Do not expect any liquidity or bank covenant issues.
- Expect gradual sequential improvement in our markets as we progress through the next two years
- In 2021, we expect to see a 20+% increase in Adjusted EBITDA compared to 2020

Pro Forma Adjusted EBITDA

(dollars in millions)

Demand trough from impact of COVID-19 occurred in Q2'20 with strong recovery in Q3'20. 2021 expected to show 20+% increase in Adjusted EBITDA.

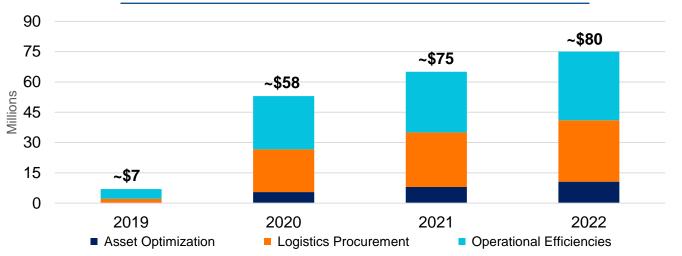

Balanced Capital Allocation Strategy

Supported by Strong Free Cash Flow with adjustments for COVID-19

| Capital Structure | Net Leverage Target ≤ 2.5x | Post COVID-19 focus on reducing leverage while maintaining strong liquidity and compliance with bank covenants |
|----------------------|-------------------------------|---|
| Canox | Houghton Integration | Post COVID-19 reduction in capex to low \$20's mm vs previous ~\$35 mm estimate for 2020; preserves integration related capex |
| Capex | Long-term | ~1.5% of sales after integration plan completed in ~ two years |
| Return to | Dividends | Maintain/increase dividends consistent with Quaker's practice over 48 years |
| Shareholders | Share Repurchase | Return excess cash to shareholders through opportunistic buybacks |
| Acquisitions | Support Growth Strategy | Bolt-ons will support core growth near term; larger opportunities considered post leverage reduction in ~ two years |

Estimated Cost Synergies Increased

Synergies of ~\$58 million in 2020 (up from \$35 million); ~\$75

million in 2021 (up from \$50 million) and ~\$80 million in 2022

At the end of the third quarter of 2020, the Company estimates

it realized ~ \$40 million of cumulative synergies in 2020

Estimated Synergy Realization Timing

Sources of Synergy

Asset Optimization (~15%)

- Manufacturing footprint optimization
- Optimize IT platforms

Logistics & Procurement (~40%)

- Raw material purchasing
- Freight / warehousing
- Ester production

Operational Efficiencies (~45%)

- Organizational redundancies
- Non-labor cost savings

٠

Synergy Updates

(up from \$60 million)

Success: What Does it Look Like?

6

We are highly confident in our ability to deliver our Integration Plan

We will have industry leading safety performance

We will have retained our customers

We will have achieved our targets and increased Adjusted EBITDA margin by ~4% pts

We will be growing above the market by 2 to 4%

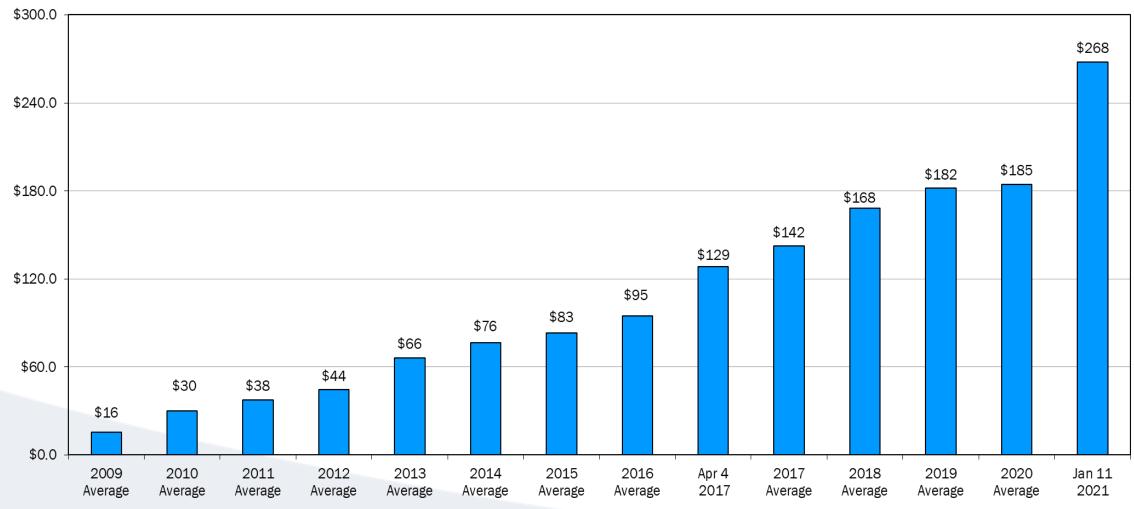

We will have reduced our debt to targeted level of \leq 2.5x net debt to Adjusted EBITDA

We will have made at least one acquisition and be positioned for more

We will have an engaged and happy workforce

Creating Shareholder Value Is Our Priority

Appendix Actual and Non-GAAP Results

Non-GAAP and Pro Forma Measures

The information included in this presentation includes non-GAAP (unaudited) financial information that includes EBITDA, adjusted EBITDA, adjusted EBITDA margin, non-GAAP operating income, non-GAAP operating income, non-GAAP operating margin, non-GAAP net income, non-GAAP earnings per diluted share, and pro forma net sales, net income (loss) attributable to Quaker Houghton, EBITDA, adjusted EBITDA and adjusted EBITDA margin. The Company believes these non-GAAP financial measures provide meaningful supplemental information as they enhance a reader's understanding of the financial performance of the Company, are indicative of future operating performance of the Company, and facilitate a comparison among fiscal periods, as the non-GAAP financial measures exclude items that are not considered indicative of future operating performance or not considered core to the Company's operations. Non-GAAP results and pro forma information are presented for supplemental informational purposes only and should not be considered a substitute for the financial information presented in accordance with GAAP.

The Company presents EBITDA which is calculated as net income (loss) attributable to the Company before depreciation and amortization, interest expense, net, and taxes on (loss) income before equity in net income of associated companies. The Company also presents adjusted EBITDA which is calculated as EBITDA plus or minus certain items that are not considered indicative of future operating performance or not considered core to the Company's operations. In addition, the Company's operations. Adjusted EBITDA margin and non-GAAP operating margin are calculated as the percentage of adjusted EBITDA and non-GAAP operating income to consolidated net sales, respectively. The Company believes these non-GAAP measures provide transparent and useful information and are widely used by analysts, investors, and competitors in our industry as well as by management in assessing the operating performance of the Company on a consistent basis.

Additionally, the Company presents non-GAAP net income and non-GAAP earnings per diluted share as additional performance measures. Non-GAAP net income is calculated as adjusted EBITDA, defined above, less depreciation and amortization, interest expense, net, and taxes on income before equity in net income of associated companies, in each case adjusted, as applicable, for any depreciation, amortization, interest or tax impacts resulting from the non-core items identified in the reconciliation of net income (loss) attributable to the Company to adjusted EBITDA. Non-GAAP earnings per diluted share is calculated as non-GAAP net income per diluted share as accounted for under the "two-class share method." The Company believes that non-GAAP net income and non-GAAP earnings per diluted share provide transparent and useful information and are widely used by analysts, investors, and competitors in our industry as well as by management in assessing the operating performance of the Company on a consistent basis.

In addition, the Company has provided certain unaudited pro forma financial information in this presentation. The unaudited pro forma financial information is based on the historical consolidated financial statements and results of both Quaker and Houghton and has been prepared to illustrate the effects of the Combination. The unaudited pro forma financial information has been presented for informational purposes only and is not necessarily indicative of Quaker Houghton's past results of operations, nor is it indicative of the future operating results of Quaker Houghton and should not be considered a substitute for the financial information presented in accordance with GAAP. The Company has not provided pro forma financial information as it relates to the acquired operating divisions of Norman Hay plc based on materiality. Pro forma results for the three and nine months ended September 30, 2019 include two months of Houghton's operations as the Combination closed on August 1, 2019, while Houghton reflects its stand-alone results for the month of July 2019 for the three months ended September 30, 2019 and year-to-date July 2019 for the nine months ended September 30, 2019. Pro forma results for the year ended December 31, 2019 include five months of Houghton's operations post-closing of the Combination, while Houghton reflects seven months of results for the period from January 1, 2019 through July 31, 2019. Pro forma results for the years ended December 31, 2018, 2017 and 2016, respectively, include Quaker's historical results, while Houghton reflects its stand-alone results.

As it relates to the full year 2020 expected adjusted EBITDA and other forward-looking information described in this presentation, the Company has not provided guidance for comparable GAAP measures or a quantitative reconciliation of forward-looking non-GAAP financial measures to the most directly comparable U.S. GAAP measure because it is unable to determine with reasonable certainty the ultimate outcome of certain significant items necessary to calculate such measures without unreasonable effort. These items include, but are not limited to, certain non-recurring or non-core items the Company may record that could materially impact net income, as well as the impact of COVID-19. These items are uncertain, depend on various factors, and could have a material impact on the U.S. GAAP reported results for the guidance period.

The following charts should be read in conjunction with the Company's third quarter earnings news release dated November 5, 2020, which has been furnished to the SEC on Form 8-K and the Company's Form 10-Q for the period ended September 30, 2020, filed on November 5, 2020 with the SEC. These documents may contain additional explanatory language and information regarding certain of the items included in the following reconciliations.
