QUAKER CHEMICAL CORPORATION ANNOUNCES FIRST QUARTER 2011 RESULTS

- Strong quarterly sales up 25% to \$159.9 million from Q1 2010
- Q1 2011 diluted EPS of \$0.91 vs. \$0.84 diluted EPS in Q1 2010
- Product volumes higher than Q1 2010 by 16%

April 26, 2011

CONSHOHOCKEN, PA – Quaker Chemical Corporation (NYSE:KWR) today announced net sales of \$159.9 million and earnings per diluted share of \$0.91 for the first quarter of 2011, up 25% and 8%, respectively, compared to net sales of \$128.3 million and earnings per diluted share of \$0.84 for the first quarter of 2010.

Michael F. Barry, Chairman, Chief Executive Officer and President, commented, “We are off to a good start in 2011, despite the continuing challenge of escalating raw material costs. We are and will be implementing additional price increases as part of our ongoing effort to restore our margins to more acceptable levels. However, our profitability continues to grow due to good demand in our base markets, new business gained and the contribution from our recent acquisitions.”

Mr. Barry further stated, “Despite the uncertainties in the raw material markets and global economies, our goal for 2011 remains to build upon the profitability we achieved in 2010. With our leadership positions in both the emerging and mature markets, as well as our organic and external growth opportunities, I remain confident in our prospects for 2011 and beyond.”

First Quarter 2011 Summary

Net sales for the first quarter of 2011 were \$159.9 million, an increase of 25% from \$128.3 million in the first quarter of 2010. The increase in net sales was primarily the result of higher volumes and selling prices across the globe. Product volumes were higher by approximately 16% including the effects of acquisitions. Selling prices and mix increased revenues by approximately 7%, as the Company continues to implement price increases to help offset higher raw material costs. Foreign exchange rates also increased revenues by approximately 2%.

Gross profit increased by approximately \$5.4 million, but gross margin decreased from 36.9% in the first quarter of 2010 to 33% in the first quarter of 2011, as raw material costs continued to escalate, particularly in the first quarter of 2011. The Company continues to implement price increases to recover these higher costs.

Selling, general and administrative expenses (“SG&A”) increased approximately \$5.0 million compared to the first quarter of 2010. Higher selling costs on increased business activity, our 2010 acquisitions, foreign exchange rate translation and higher professional fees accounted for approximately 62% of the increase. Higher inflationary and other costs partially offset by lower incentive compensation accounted for the remainder of the increase. SG&A as a percentage of sales decreased to 24.2% in the first quarter of 2011 from 26.2% in the first quarter of 2010.

Quaker Chemical Corporation

One Quaker Park, 901 E. Hector Street, Conshohocken, PA 19428-2380 USA www.quakerchem.com

T 610.832.4000 F 610.832.8682

Net interest expense decreased due to lower interest rates despite higher average borrowings. Equity in net income of associated companies increased compared to the first quarter of 2010 as the prior year quarter reflected a charge of approximately \$0.03 per diluted share related to the first quarter 2010 devaluation of the Venezuelan Bolivar Fuerte.

The Company's low first quarter 2011 and 2010 effective tax rates include the expiration of applicable statutes of limitations for uncertain tax positions of approximately \$0.11 per diluted share, in each period. The Company has experienced and expects to further experience volatility in its quarterly effective tax rates due to the varying timing of tax audits and the expiration of applicable statutes of limitations as they relate to uncertain tax positions. However, the Company expects a higher effective tax rate for the full year 2011 as compared to the first quarter 2011 rate.

Balance Sheet and Cash Flow Items

Debt increased from December 31, 2010 due to higher working capital requirements on increased business activity, as well as the timing of payments related to incentive compensation.

Forward-Looking Statements

This release contains forward-looking statements that are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected in such statements. A major risk is that the Company's demand is largely derived from the demand for its customers' products, which subjects the Company to downturns in a customer's business and unanticipated customer production shutdowns. Other major risks and uncertainties include, but are not limited to, significant increases in raw material costs, customer financial stability, worldwide economic and political conditions, foreign currency fluctuations, and future terrorist attacks such as those that occurred on September 11, 2001. Other factors could also adversely affect us. Therefore, we caution you not to place undue reliance on our forward-looking statements. This discussion is provided as permitted by the Private Securities Litigation Reform Act of 1995.

Conference Call

As previously announced, Quaker Chemical's investor conference call to discuss first quarter results is scheduled for April 27, 2011 at 8:30 a.m. (ET). A live webcast of the conference call, together with supplemental information, can be accessed through the Company's Investor Relations Web site at <http://www.quakerchem.com>. You can also access the conference call by dialing 877-269-7756.

About Quaker

Quaker Chemical Corporation is a leading global provider of process chemicals, chemical specialties, services, and technical expertise to a wide range of industries – including steel, aluminum, automotive, mining, aerospace, tube and pipe, coatings and construction materials. Our products, technical solutions and chemical management services enhance our customers' processes, improve their product quality and lower their costs. Quaker's headquarters is located near Philadelphia in Conshohocken, Pennsylvania.

Risk and Uncertainties Statement

Regulation G

The attached charts include Company information that does not conform to generally accepted accounting principles (GAAP). Management believes that an analysis of this data is meaningful to investors because it provides insight with respect to ongoing operating results of the Company and allows investors to better evaluate the financial results of the Company. These measures should not be viewed as an alternative to GAAP measures of performance. Furthermore, these measures may not be consistent with similar measures provided by other Companies.

This data should be read in conjunction with the Company's first quarter earnings news release dated April 26, 2011, which has been furnished to the SEC on Form 8-K, and the Company's Form 10-Q for the quarterly period ended March 31, 2011, which has been filed with the SEC.

Forward-Looking Statements

This presentation may contain forward-looking statements that are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected in such statements. A major risk is that the Company's demand is largely derived from the demand for its customers' products, which subjects the Company to downturns in a customer's business and unanticipated customer production shutdowns. Other major risks and uncertainties include, but are not limited to, significant increases in raw material costs, customer financial stability, worldwide economic and political conditions, foreign currency fluctuations, and future terrorist attacks such as those that occurred on September 11, 2001. Other factors could also adversely affect us. Therefore, we caution you not to place undue reliance on our forward-looking statements. This discussion is provided as permitted by the Private Securities Litigation Reform Act of 1995.

1st Quarter 2011 Results

- Diluted EPS of \$0.91 in 1Q 2011 vs. EPS of \$0.84 for 1Q 2010
 - 1Q 2010 results include a charge of EPS \$0.03 related to the devaluation of the Venezuelan Bolivar
 - Both quarters include tax benefits of \$0.11 related to FIN 48, Accounting for Uncertainty in Income Taxes
- Sales up 25% to \$159.9 MM with product volume up 16% including acquisitions, compared to 1Q 2010
- Volume was up 9% including acquisitions from Q4 2010
- Gross margin of 33.0% vs. 36.9% in 1Q 2010 and 33.7% in 4Q 2010, due to higher raw material costs outpacing pricing actions. Additional 2011 pricing actions planned.
- Debt increased from December 31, 2010 due to higher working capital requirements on increased business activities, as well as the timing of payments related to incentive compensation

Outlook

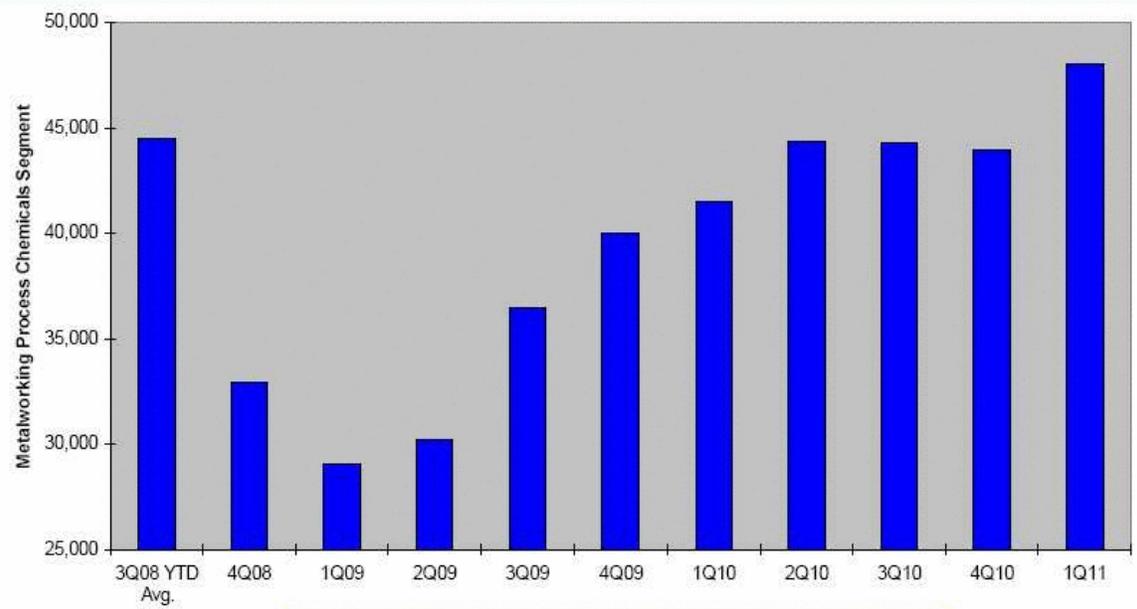

Short-term

- Some demand uncertainty with recent interest rate increases in China, India and Brazil
- Limited margin visibility over the next one to two quarters as raw material costs continue to escalate
 - Lag effect with additional price increases
- Helping to offset these uncertainties are new business gained and growth from recent acquisitions
- Continued goal to build upon the record profits achieved in 2010

Longer-term

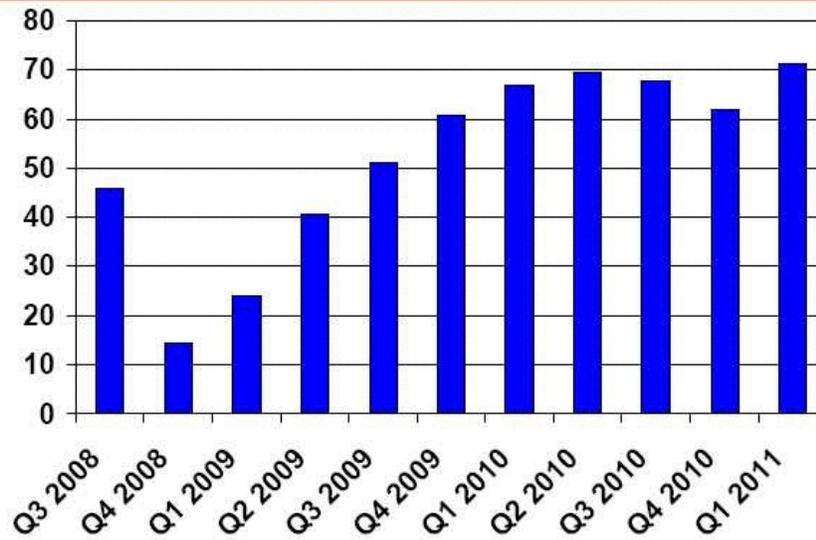

- Good growth prospects as Europe and U.S. markets continue to recover and emerging markets continue strong growth

Product Volume by Quarter

Record Volume Level In Q1 2011

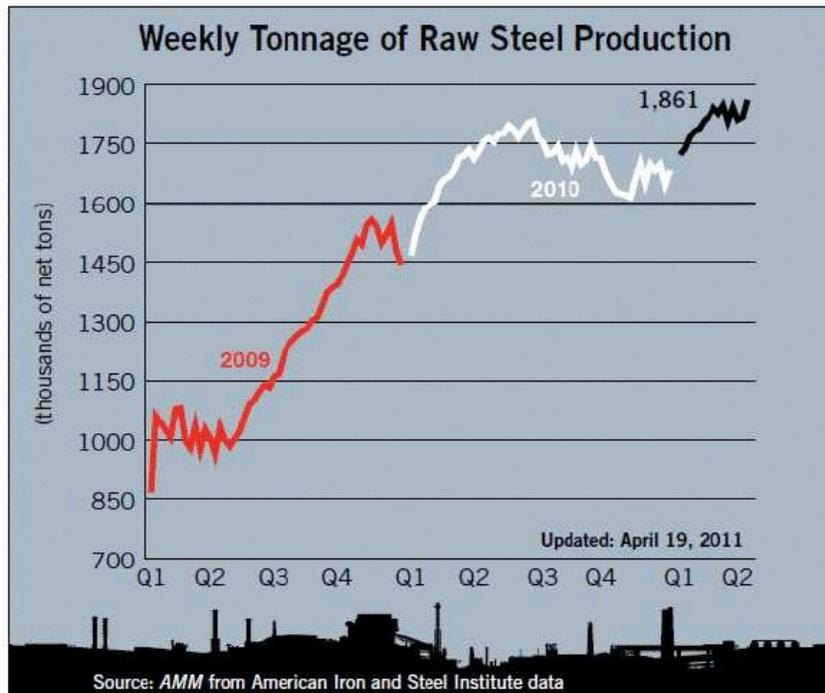

Annualized Run Rate of Adjusted EBITDA

Note: Excludes restructuring, CEO transition costs, equity affiliate out-of-period charge and non-income tax contingency charge. Annualized EBITDA is latest quarter's EBITDA multiplied by 4.

Current EBITDA Run Rate Highest In Quaker History

NA Steel Market Data

Summary

- Record quarter for sales, earnings and EBITDA
- Balance sheet continues to be strong
- Positioned for good growth over next several years in both emerging and mature markets
 - Emerging markets – well positioned in BRIC (Brazil, Russia, India & China) to take advantage of strong growth
 - Mature Markets – Steel and auto markets expected to have above normal growth as industries gradually rebound
- Raw material costs continue to increase
- Further pricing actions being planned for Q2
